We would like to express our thanks for the cooperation and hospitality you extended to us during the inspection of your plant on June 06-08/ 2016

The purpose of the inspection was to determine the compliance of the manufacturing plant with the principles of Good Manufacturing Practice (GMP) as a complement to market authorization.

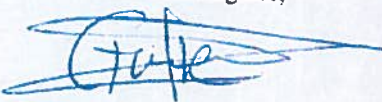

The level of compliance of the company's *Human Biological* manufacturing facilities and operations with the principle of GMP for pharmaceutical products in general is considered to be acceptable. Accordingly the authority would like to inform you that your plant is accepted to register its products from the above mentioned manufacturing lines */Human Biological/*. Deficiencies which were observed during the inspection time as indicated in the attachment needs to be corrected and reported.
