

QUALITY POLICY

Commitment To Care For Life

Our strong belief in quality is not restricted by just conformance to specification but to develop a team of employees that believes in quality as a way of life. It is our constant endeavour to build quality into the product at every stage of manufacture.

- ▶ We shall strive to implement highest standards of operations conforming to cGMP.
- ▶ We shall abide to all national and international regulation as applicable to our business.
- ▶ We shall embed a culture of continual improvement in our business operations.

This shall be achieved by means of using :

- ▶ The best available resources.
- ▶ Good product design.
- ▶ Well-equipped plant operations.
- ▶ An effective quality management system.
